

Mini Ultra Violet (UV) Sterilizer

These mini sterilizers are useful for hospital, pharmacy, beauty shop, laboratory, clinic, pharmacy and places that need sanitation and sterilization.

They are good in design and small size. They are effective in disinfecting various kinds of germs on the surface of general items by using UV-ray (235.7nm wavelengths). It is very convenient to be used as keeping box for small implements.

Features:

- ✓ Easy to operate
- ✓ No special room preparation required, as the device can be placed at medical sites
- ✓ Set up quickly with the preset programs
- ✓ Disinfect high touch non-critical surfaces in minutes
