

Hydraulic Body Lifting Trolley

Hydraulic lifting trolley with double cross bar for tray with casters. The different surfaces (guides, rollers and smooth surface) meet the needs of any structure and the frame is double-scissor-like, allowing the achievement of the 3rd place on top refrigerators. The hydraulic lifting mechanism can be a hydraulic pump with foot pedal or electric, depending on the model. All models are equipped with safety guards for the wheels and a speed controller so that once you lift the load, if you decide to lower it again, the same is not likely to fall suddenly endangering the operator.

Features:

- ✓ Separated movable tray 304 stainless steel.
- ✓ 4 firm casters with locks makes your operation more conveniently and all directional casters can let you go through a tight corridor.
- ✓ Hydraulic lift function are environmentally and efficiently lifter you can choose with height you want with easier operation.
- ✓ Smooth and polished surface with characteristics of easy to clean and beautiful appearance.

HLT 002

Model	HLT 002
Dim. (mm) L x W x H	2400 x 740 x 1580
Made of	Stainless Steel 304
Lifting Height	From 400mm to 1580mm
Hydraulic Powered	Lifting and Lowering
Power	Battery operated with DC charger
Battery	12V DC sealed type
Battery Indication	0V to 15V DC
End Rubber Pumper	Protection against walls
Castor	4pcs with lock
Easy transfer of body	Roller type with stopper
Weight Scale	Yes
